Summary

5 years of experience in web development. For the last 2 years in the industry, I have worked as a React developer for a start-up company in the field of fintech. I'm a dedicated worker, and I am always looking for more practical knowledge in my profession to perfect my skills.

Experience

Sunbit

React Developer

December 2021 – October 2023

The role involved intensive teamwork using the Agile methodology. Leading technologies and skills: Redux-Toolkit, Typescript, Detox, Cypress, Styled-Components, storybook.

Self-employed

Frontend Developer

January 2019 - October 2021

As I studied to finish my degree, I developed my FE skills by learning angular At Udemy.

I developed a chat website for learning purposes and used Firebase as the Backend and hosting.

Link: <https://mychatapp4-1f82e.web.app/chat>.

Repo: <https://github.com/sfiller23/myChatApp>.

Leading technologies: Firebase, NgRx, Rxjs. Bootstrap5.

Additionally, I built a website for a metal band using Django and a website for a personal fitness trainer using WordPress.

Indigo Immigration services

Full Stack Developer

February 2016 - April 2017

- Maintained company sites using jQuery and Vanilla JS to ensure smooth functionality.
- Managed a PHP-built CRM site for efficient customer relationship management.
- Implemented UI/UX enhancements to boost user experience and drive increased site traffic.
